Excellencia
INFINITUM SCHOOL

Affiliated to CBSE No: 3630336

SCHOOL BUILDING

EXCELLENCIA INFINITUM is a world-class day and residential school, located in a sprawling green campus in Shamirpet, in the Indian silicon city, Hyderabad.

The school, affiliated to the Central Board for Secondary Education (CBSE), has a state-of-the-art infrastructure, offering holistic education through comfortable classrooms, fully-equipped modern laboratories and sports arenas.

The amenities in the residential wing are comparable to the best of school accommodations in the Asian sub-continent. These amenities combined with the holistic learning experiences ensure that the student finds the living as comfortable as at his/her home.

**THE ONLY SCHOOL IN HYDERABAD PROVIDING FOUNDATION CLASSES
WHICH PREPARES THE CHILD FOR ALL COMPETITIVE EXAMS INCLUDING IIT (JEE), NEET, NTSE
WITHOUT MISSING EXTRA CURRICULARS**

SCHOOL HOSTEL

FACULTY

The faculty, staff and administrators play a pivotal role in imparting academic, moral, ethical values, and compassion. The role of faculty is not limited to the walls of the classroom.

They prepare students for life. Teachers have a minimum of ten years of experience and selected through a stringent evaluation process.

SECURITY

We follow foolproof mechanisms and impregnable standards of safety. Our campus is secured by a ten feet high boundary wall which is difficult to scale over easily. All entry points are manned by at least 3 security guards. To avoid proxy attendance, we capture attendance using biometric devices.

FOOD

Our pupils experience different culinary flavors. Our spirited catering staff constantly introduce new and interesting menus—always using locally sourced organic farm products and healthy ingredients. On weekends, we honor boarders choice of food. Food served in the mess is typically prepared in a large quantity to accommodate the needs of a large number of students. The common menu options may include dishes such as curries, rice, noodles, regional Indian cuisines, sandwiches, soups, and salads.

Food is served in a cafeteria-style setting, where students can choose from a variety of dishes that are available for the day. This arrangement provides a social setting for students to interact with their peers and to build community.

HOME AWAY FROM HOME

Boarding life remains the cornerstone of Excellencia. A typical day scholar at Excellencia shows up for 6–8 hours a day. A Boarder can avail the opportunity to be fully immersed, acquiring knowledge and growing holistically 24 hours a day, 7 days a week. The campus has a wide range of extracurricular activities available, such as sports, music, and clubs, which can help students to develop new interests and skills. Living away from home can help students to develop independence and self-sufficiency.

We boast of well-equipped dormitories and the best food any school can provide, besides all-round support so that students feel at home, despite being away from home.

DIFFERENTIALS OF EXCELLENCIA INFINITUM

- 15-acre lush-green campus with 6 acres earmarked for sports.
- High end next-gen labs for Science, Robotics and STEAM programs.
- NEP based pedagogy and foundation courses blended with CBSE curriculum to aid preparation for NTSE and IIT-JEE/NEET.
- Air-conditioned class rooms with limited students per class.

VENKAT MURIKI

Founder - Director
Excellencia Junior Colleges

Hailing from the hinterlands, of the undivided Andhra Pradesh, in modern day Telangana, Venkat rose to become a first-generation, self-made, academician-turned educationist-turned entrepreneur. He is a teacher at heart and an educationist by profession.

Venkat obtained his Bachelor's degree at Osmania University after which he bagged an All India Rank (AIR) of 21 in the entrance examination for admission to the Master's degree program at the prestigious, University of Hyderabad, a Central University, declared as an Institution of Eminence by Ministry of Education, Government of India. He shot to fame due to his teaching prowess, depth of knowledge and innate ability to manage operations and administration right from the early stages in his career. Venkat has worked for the best brands in Education & Test-Prep and has handled positions with increasing responsibilities at FIIT-JEE, FIIT-JEE World School and Narayana IIT Academy.

His quest to provide excellence in education continued when he charted out on his own by floating the *Excellencia Group of Institutions* in early 2015. A Social Entrepreneur, Venkat's single-minded objective is to impart quality education at affordable costs to the students. His group now runs 8 junior colleges and 1 CBSE school in Hyderabad. *Excellencia* is a powerhouse of United Andhra and has produced top-notch results, if that is the yardstick to measure quality of education.

message

talent development

SPORTS

Sports are an important part of our school. They help our students stay physically active and healthy. They also teach our students important life lessons, such as teamwork, sportsmanship, and perseverance. Our school offers a variety of sports teams for our students to join, including basketball, football, badminton, and tennis. Our sports teams are competitive and our students have a lot of fun participating in them.

MUSIC AND DANCE

Music and dance are an important part of our school culture. We believe that they play a vital role in the education of our students. We offer a wide range of music and dance classes, from traditional to contemporary. We also have a number of performance groups that give our students the opportunity to showcase their talents. Our music and dance program is designed to develop students' creativity, confidence and self-expression. We believe that these skills are essential for success in any field.

SKATING

Skating is a great way to get exercise and have fun. Our school offers skating lessons for students of all levels. Whether you are a beginner or an experienced skater, we have a lesson plan that is right for you. Our lessons are taught by experienced and certified skating instructors.

Some of the programs we offer include:

- Learn to Skate
- Recreational Skating
- Figure Skating
- Speed Skating
- Synchronized Skating

KARATE

In karate, we learn to defend ourselves and we learn to control our body and our mind. Karate is a healthy sport that is good for your body and mind. Some benefits of karate in school are that it can help improve concentration and focus, discipline, respect, and self-confidence. It can also help reduce stress and anxiety, and promote physical fitness.

Karate is a martial art that has its origins in Asia, specifically in Japan. The karate lessons are taught by an experienced instructor who is a black belt. The lessons are suitable for children from 4 years of age.

ART AND CRAFT

There are many advantages to learning art and craft in school. It can help children develop their creativity, imagination and motor skills. It can also promote problem solving, critical thinking and collaboration. Additionally, art and craft can be a fun and enjoyable way for children to express themselves and learn about their culture and heritage.

Our school often has art and craft activities for students to participate in. These activities can include making paintings, sculptures, or other art projects. Sometimes, the activities are simply for fun, while other times they may be part of a class or competition. Either way, they are always enjoyable and give students a chance to be creative.

ROBOTICS

Some potential benefits of having a robotics lab in school are that students could learn about and experiment with different robotic technologies, coding, and engineering principles. This could foster creativity, problem-solving skills, and a greater interest in STEM disciplines. Additionally, working in teams on robotics projects could promote teamwork and social skills.

INVESTITURE CEREMONY

The Investiture Ceremony provides opportunities for the students to assume responsibility and leadership in the school. The ceremony begins with lighting of the lamp which signifies the beginning of the event. Investitures are important because they are a formal way of recognizing and celebrating student achievement. They also provide a strong reminder of the importance of student effort and responsibility.

FIELD TRIPS

Field trips provide opportunities for students to explore and learn about the world around them. They also allow students to interact with their peers in a different environment. Some advantages of field trips for school students include providing them with first-hand experience of places they are studying, broadening their horizons beyond the classroom, and giving them a chance to bond with classmates outside of school. Field trips can also be used as a reward for good behavior or academic achievement.

infrastructure

LABS

Some common labs in schools are science labs, computer labs, and art labs. Each type of lab serves a different purpose. Science labs are usually equipped with materials and tools for students to conduct experiments and observations. This allows students to gain first-hand experience with scientific equipment and materials.

Computer labs usually have a variety of computers and software for students to use. Art labs typically have a wide variety of art supplies for students to use in their projects.

The labs are spacious and have all the necessary equipment for students to conduct experiments. The staff is also very friendly and helpful, and they are always willing to answer any questions that students may have.

SMART CLASSES

The school is equipped with the state of art facilities in terms of information and communication technology. The smart classroom is the future of schooling. It is an interactive learning environment that is equipped with the latest technology to engage students in their learning. Our smart Classrooms are technologically enhanced learning spaces which allow students to be actively engaged in their learning.

Our classrooms are equipped with interactive:

- Displays
- Projectors
- Whiteboards

CODING & COMPUTER LABS

Our students develop problem-solving skills, improve their critical thinking abilities, and learn how to think creatively. In addition, coding is also helping students develop a better understanding of how computers work and how to use them effectively. Additionally, learning coding in school builds solid foundations in computer programming to enable more sustainable careers in computer science and other related fields.

LIBRARY

The mission of the school library is to ensure that all students and staff are effective users of ideas and information. The library accomplishes this by providing access to materials and services that support the curriculum and information and lifelong learning.

The school library is a great place to go to find resources for your studies. The librarians can help you find the materials you need, and the library may also have computers that you can use.

academics

PEDAGOGY

We believe that every child is unique and has their own strengths, weaknesses and interests. Therefore, we tailor our teaching methods to fit the needs of each individual child. We use a variety of teaching techniques including whole-class instruction, small group work, and one-on-one tutoring. We also make use of technology, such as computers and interactive whiteboards, to enhance our students' learning experience.

The pedagogy in our school is built around the principles of inquiry-based learning. This means that students are actively engaged in their own learning, and that they are encouraged to ask questions and explore topics in depth. The goal is for students to develop a deep understanding of the subjects they are studying, and to be able to apply what they have learned to new situations.

FOUNDATION CLASSES

We have a very strong foundation course for students who are new to the school. This ensures that every student is able to cope with the academic level of the school. We offer a wide range of bridge courses for students who are joining the school from other schools.

MOTIVATION CLASSES AND EXPERT TALKS

We believe in effective learning and hence we have designed our curriculum accordingly. We are also associated with a lot of corporate leaders and subject a in the industry who come and address our students on a regular basis.

Some benefits of industry interface sessions in schools include:-

- ✓ Providing students with first-hand exposure to different industries and potential career paths
- ✓ Introducing students to mentors and provide insights into the working world
- ✓ Helping students to develop skills such as teamwork, communication, and problem-solving
- ✓ Encouraging students to consider options that may be relevant to their chosen career
- ✓ Allowing students to ask questions and get clarification on aspects that they are interested in

Our teacher act as knowledge navigators, facilitators and mentors rather than knowledge providers.
